Yes, that is correct. I will let Bola chime in with the exact timing.

Thanks,

Becky Mitschele

Laurel:

That time slot works for me, assuming I'm not called to jury duty. If I am, I'll have Tamara Anderson step in to discuss the way we're working asset management into the Salinas MS4 Permit. But I'm assuming most of the time will be used by Becky presenting EPA's material. Is that how others see it?

Thanks,

Hi everyone, I have a timeslot (march 28th 2:30-3:00) on the next stormwater program roundtable for Becky and Dominic to provide a presentation on asset management. Please confirm this timeslot works and this is a good amount of time for the item.

Thank you,

Laurel Warddrip

Hi Dominic,

I think hearing about RB3 approach would be beneficial.

We are still coordinating a speaker for EPA but maybe it makes sense to have a few slides at the end of our presentation that would let you speak about the future Salinas Phase I permit.

Thanks,

Becky Mitschele

Subject: RE: Water Boards' Storm Water Roundtable Item on Asset Management

Hi All:

Tamara Anderson, WRCE in Region 3's stormwater program has drafted some Asset Management permit language for our upcoming Salinas Phase I Permit (adoption scheduled for September 2019). We can offer it up as an example if that would be of interest to the group. It is based on some examples from USEPA, but also a considered approach for the particulars of the City. The City is reviewing it so we can see how close we are to a reasonable set of requirements that won't automatically trigger an unfunded mandate claim, i.e., if they are game to pursue AM for the advantages it brings them, they aren't likely to call it a State Mandate.

I'm looking forward to this item. Thanks for spearheading it!
dr

Hi David,

Our next NPDES Storm Water Roundtable meeting is on March 28th. Our next NPDES Wastewater Roundtable meeting is in May.

I'd like to see if a USEPA staff is available to provide an Asset Management-related agenda item at the March 28th meeting, and we will discuss the May agenda at a later time.

Diana

Hi Diana- I'm sure we can help. Let me talk to a couple of folks here and I'll get back to you with a contact. Any idea on timeframe? Thx

Dave

Hi David and Becky,

I hope you are both doing well. Happy New Year.

We would like to add an agenda item to our Water Boards' Stormwater Roundtable for presentation of USEPA's guidance on asset management, and how to incorporate this guidance into NPDES stormwater permit requirements to address climate change.

Who do we work with as a potential speaker from USEPA?

Diana
